Why Plymouth's Beauty Lasts and Lasts!

On the outside, it begins with the exclusive 7-step dip-and-spray anti-rust process and two tough coats of oven-baked epoxy primer, and ends up with three coats of Acrylic Enamel. What's so great about Plymouth's Acrylic Enamel? To start with, a special acrylic resin, that gives it a gloss-in-depth that reflects a mirror-like finish. This same resin gives Acrylic Enamel its durable super-hard finish when it's oven-baked. Even after years of service and exposure to the elements, Plymouth's Acrylic Enamel finish can be buffed to restore its original luster.

On the inside, beautiful color-coordinated vinyls and rich, decorator-designed fabrics are offered on a wide choice of seat types and styles. Durable materials are crafted to keep Plymouth interiors looking new for years.
