GENERAL TRIM INFORMATION

COLOR CODED OR MIXED PART NUMBERS

Appearing throughout this catalog are part numbers containing both letters and numbers. For example: 2000VB5 or 6700FX9. These are good serviceable part numbers. The combination of letters and numbers merely indicates the parts are keyed to the interior color of the vehicles on which they are used.

BODY CODE PLATE

The body code plate located in the engine compartment contains information relative to the vehicle trim and paint codes which are required to specify proper trim items. A sample plate and description follows:

INTERIOR TRIM GRAPHICS

The Graphics Included in this section are typical.

The LETTERS Shown on Graphics indicate the Description of the part and the part type code in which the part may be located. Refer to Page INF-4 for letter index.

The NUMBERS shown on Graphics indicate the distribution and type of material. Refer to Roll stock information Section for the particular carline for number identification.
